

**ACUTE INFLAMMATION**

- Vascular changes
- Neutrophil recruitment
- Mediators

**RESOLUTION**

- Clearance of injurious stimuli
- Clearance of mediators and acute inflammatory cells
- Replacement of injured cells
- Normal function

1

Progression

Healing

Pus formation (abscess)

Healing

2

**CHRONIC INFLAMMATION**

- Angiogenesis
- Mononuclear cell infiltrate
- Fibrosis (scar)

4

**FIBROSIS**

- Loss of function
